Welcome to Ecovolve Landscape & Design. We are a Brisbane-based landscape team focused on smart design to positively impact people and the planet.

BRISBANE-BASED LANDSCAPE AND DESIGN

We help people & the planet flourish.

Does your garden grow wildly in Queensland's summer and struggle through winter? Do you dream of a beautiful outdoor space that doesn't cost the earth to keep alive?

The truth is that a science-first approach to landscape design can create a harmonious, sustainable outdoor space. That's akin to nature. And beautiful too.

Our tailored outdoor spaces –

Easy to maintain

Thrive in our climate

Personalised to your home

Considerate of your environmental impact

Cared for reliably & meticulously on your behalf

We create landscapes akin to nature.

At Ecovolve Landscape & Design, we specialise in landscape architecture, horticulture, design and maintenance – including vertical gardens and certified irrigation systems. Our QBCC license certificate means we can provide both soft and hard landscaping solutions. So, we can create high-quality, sustainable outdoor spaces tailored to your specific needs.

Here's how we can better your outdoor space:

Landscape Architecture & Design

Whether you want to improve the outdoor space of your home or business, we have a science-first approach to creating landscapes that balance street appeal and sustainability. All for the benefit of creating a positive impact for people and the planet.

OUR CLIENTS SAY

Beautiful words from our work.

★★★★★

"Sergio and his team are fantastic. They are efficient, knowledgeable, hard-working, diligent, thorough and skilled. I'm thrilled with the results and highly recommend them!"

Kat Miller

★★★★★

"We struggled to get quotes organised for weeks until we found Sergio. Not only was he prompt, but he also conducted a soil test on our lawn. His quote was far more reasonable than others. Communication was excellent, and we'll definitely recommend his services!"

Sara Mat

★★★★★

"He's a fantastic gardener. He arrived on time and even brought his father and brother to help, which sped up the process. I hope he stays with us for years to handle all our gardening needs."

Kirsten Beard

★★★★★

"Everything was excellent. Communication was great, and the service was outstanding."

James Scott

★★★★★

"Sergio did an excellent job at landscaping, following our rather complex requirements, all at a good price. I've recommended him to friends and would certainly hire him again for other projects."

Jim P

★★★★★

"Sergio's team achieved an amazing transformation. Their work was outstanding!"

Toni McRae

WHO WE ARE

It's in our nature to nurture.

Ecovolve Landscape & Design is a Brisbane-based, family-owned business born from our natural desire to create outdoor experiences where people and the planet can flourish harmoniously.

Since 2005, we've blended traditional Mediterranean design with modern sustainability practices for homes and businesses. From our family to yours, we are passionate about creating relaxing, nurturing green spaces that bring value to you, your property and the world around you.

WHY WE'RE DIFFERENT

Revitalise your outdoors through Ecovolve's sustainable solutions.

With nearly two decades of experience, Ecovolve Landscape & Design is committed to delivering sustainable landscapes that benefit both people and the planet.

Our expertise lies in blending traditional horticultural knowledge with modern landscape science to revitalise your outdoors into an eco-friendly green space that is beautiful *and* functional.

Science First

We use in-depth research on plant physiology, soil health, and water management to design gardens that thrive in local climates with minimal maintenance.

Horticulturalists

We cultivate and grow our own plants. This means they are resilient, drought-tolerant, and adapted to regional conditions.

Biodiversity Enthusiasts

Our designs incorporate native and regionally adapted plants. This supports Queensland's biodiversity and the long-term maintenance of your garden.

Water Aware

We are certified to implement irrigation systems to reduce waste and conserve one of nature's most precious resources – water.

Eco-friendly

From recycled materials to low-impact construction methods, we are considerate of our environmental impact and choose eco-friendly solutions where possible. With every project.

FAQS

How sustainable landscaping solutions make an impact.

Eco-friendly choices aren't just good for the planet, they're good for your back pocket too. Here are a few common questions about sustainable landscaping solutions.

Do sustainable gardens require a lot of care?

Can sustainable gardens still be stylish?

Why is it better for the planet if I have a sustainable garden?

Do sustainable gardens require a lot of care?

Can sustainable landscaping help me save money?

My garden isn't sustainable. Can I still use your services?
